ABOUT ME

A dedicated Information Technology student focused on full-stack web development. I have hands-on experience building custom web applications, including inventory management and research archive systems. I am eager to secure a Web Development OJT role where I can write clean code, solve practical problems, and further develop my programming skills.

EDUCATION

Bachelor of Science in Information Technology (BSIT)

Panpacific University | Expected Graduation: October 2026

Tayug, Pangasinan, Philippines

SKILLS

- **Backend & Frameworks:** PHP, Laravel, CodeIgniter 4
- **Frontend Technologies:** HTML, CSS, JavaScript
- **Development Tools:** Git, GitHub, XAMPP, Visual Studio Code
- **Databases:** SQL, MySQL
- **Technical Documentation:** Microsoft Office Specialist (Word Associate)

PROJECTS

IRead: Online Archive System for Capstone Researches (Capstone Project)

- Developed a secure web-based storage repository using Laravel and PHP for managing and archiving academic PDFs and video resources.
- Implemented a secure user verification flow that grants automatic access to university emails and includes a custom approval process for alumni using personal emails.
- Integrated support for multimedia file viewing and automated PDF generation, featuring disabled text selection to protect research documents from unauthorized copying.

Web-Based Junkshop Scrap Management System

- Built a custom inventory and sales tracking platform using PHP and MySQL.
- Created a secure authentication system with multi-role access for staff and admins.
- Designed a responsive interface using HTML and CSS to digitize local business records.

Telephone Directory Management System

- Developed a complete CRUD application utilizing PHP CodeIgniter 4, Bootstrap, and jQuery.
- Integrated Excel import/export functionality and advanced search features for efficient data handling.

EXPERIENCE

Library Student Assistant (320-Hour OJT) | 2025

Panpacific University Library | Tayug, Pangasinan

- Encoded inventory records, including book codes and classifications, for catalog accuracy.
- Assisted students and faculty in locating academic resources and research archives.
- Managed the physical organization and sorting of library assets and thesis shelves.

Work Immersion Student (2-Weeks) | 2023

Bureau of Fire Protection (BFP) | San Quintin, Pangasinan

- Completed hands-on training in first aid, emergency response, and fire safety equipment.
- Demonstrated discipline and strict adherence to safety protocols in a high-pressure environment.

CERTIFICATIONS

- Microsoft: Microsoft Office Specialist (Word Associate/ 2025).
- Leadership Development (2nd PMFC): 2nd PMFC CriPreLD: Served as Facilitator (2026) after completing the program as a Participant (2025).
